MANITOBA EXPORT DIRECTORY

INTRODUCTION

To increase the knowledge of Manitoba's diverse export capabilities in the agriculture, industrial and resource sectors, Trade Branch of the Manitoba Department of Industry, Trade and Technology has published this Export Directory.

The Directory lists 467 individual firms with export experience and interests. Information in the Directory is organized as follows:

Section I: List of Manitoba Exporters by Product Category.

Section II: Alphabetical Listing of Manitoba Exporters.

Individual firm listings include a list of products produced, an employment range and a list of export markets presently served. As the Directory information is derived from a computerized database (updated October 1, 1987), Trade Branch can quickly provide more detailed information on specific exporters on request.

We encourage you to use this Directory as a reference source. We would welcome your inquiries as well as any suggestions you may have to improve the effectiveness of the Directory.

Communication should be addressed to:

Trade Branch
